

Our carers can provide a flexible range of quality care services to enable elderly and disabled people to maintain an independent lifestyle in their own homes. They can also help in the rehabilitation of adults recovering from illness or injury and assist in the provision of palliative care, whilst working in partnership with other healthcare professionals.

Our services include:

- Personal Care – Washing, bathing, dressing, help in getting up / going to bed and assistance with continence management
- Domestic Help
- Meal Preparation
- Safety checks and medication prompting
- Shopping / Companionship / Outings
- Sleeping / Waking Night Cover
- Live-in Care - See separate information sheet

Our visiting carers can provide regular or occasional visits for short periods or for fixed regular times. So whether you are seeking a little extra help at home or looking for regular or constant assistance we are here to support your needs. Our minimum visit time is half an hour and we can increase or decrease our level of support over time depending on your needs.

Subject to availability, we are able to provide visiting carers within a fifteen-mile radius of New Milton and live-in carers within a 40-mile radius.
